I. LOG-IN

The log-in credentials of the nurse, the school physician, and all clients are composed of a username and a password.

A user's username is the prefix of their own PSHS-EVC email.

Example:

Email: *thaliburton2025finalsmvp@evc.pshs.edu.ph*

Username: *thaliburton2025finalsmvp*

On the other hand, the default password of all users is **12345678**.

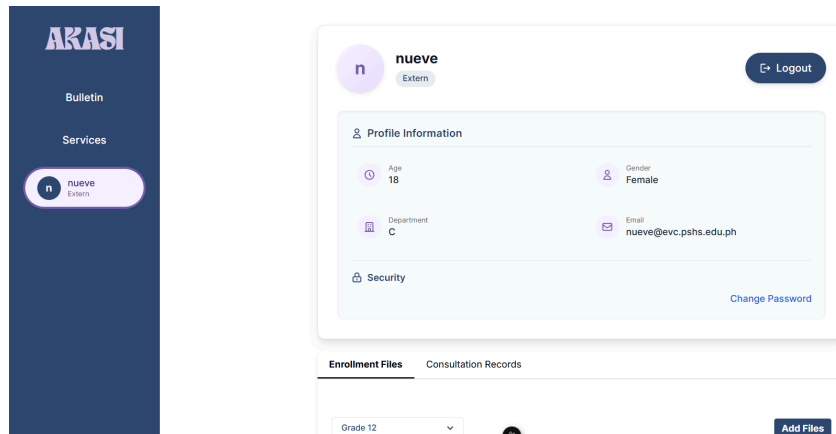

However, it is **highly encouraged** that each user change their password to a more secure one by first navigating to the Profile page by clicking the [Profile button \(bottom-left\)](#), and then the [Change Password button](#).

II. CLIENT

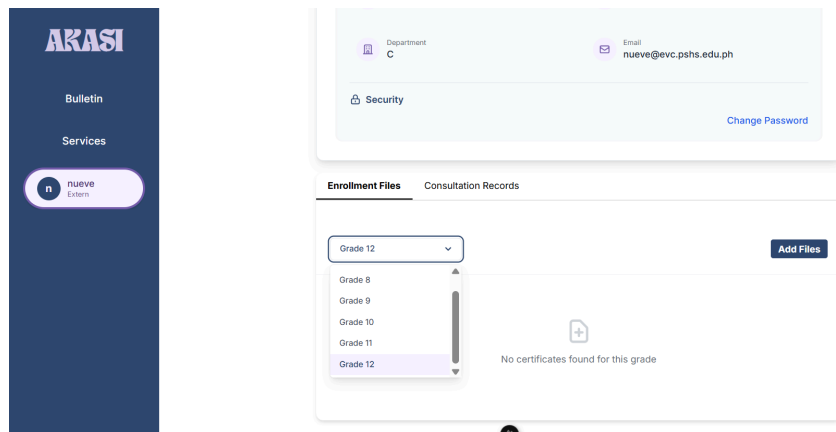

The client access level is comprised of the students, faculty, and administrative staff. This access level consists of the pages services and profile.

A. Enrollment

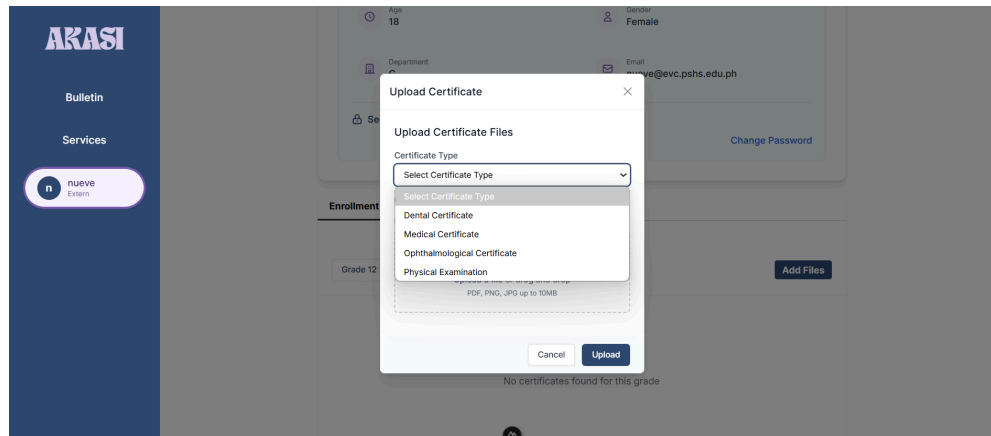

To upload documents for enrollment, the client is to access the profile page on the second button on the navigation panel.

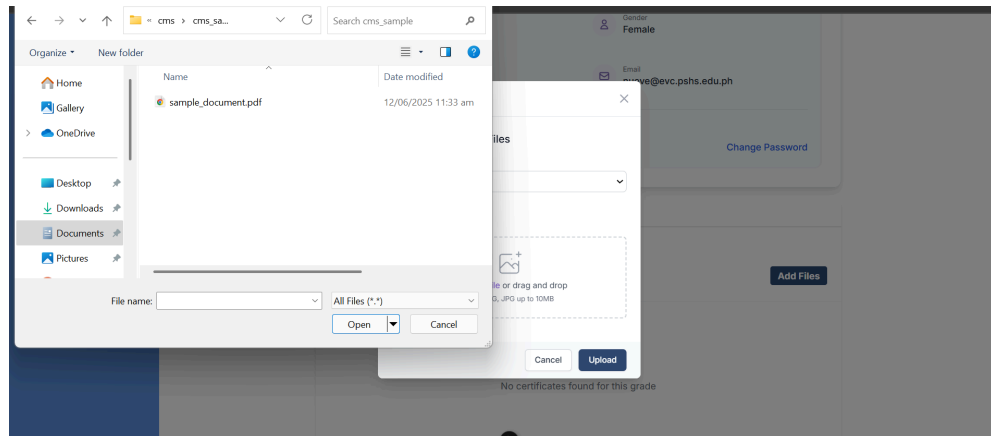

Select the scroll down and click on the “Enrollment Files” tab. Then select the current grade level of the student through the drop-down menu.

Click on the “Add Files” button and choose the type of document to be uploaded through the drop-down menu.

Click on the “Upload a file” text or drag and drop a PDF, PNG, or JPG file not exceeding 10 MB.

When successfully uploaded, the document name should be displayed below the drag-and-drop box.

Upload Certificate

Upload Certificate Files

Certificate Type

Dental Certificate

Uploading for: Grade 12

Upload File

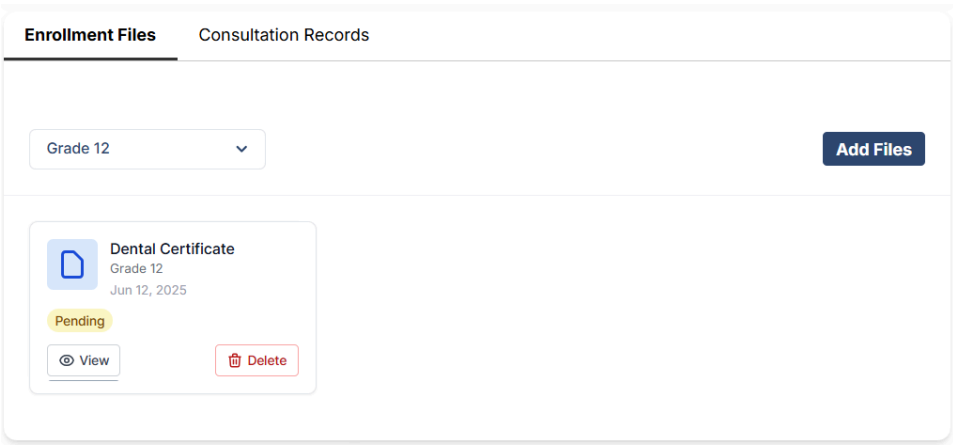

Upload a file or drag and drop
PDF, PNG, JPG up to 10MB

Selected file: sample_document.pdf

Cancel

Upload

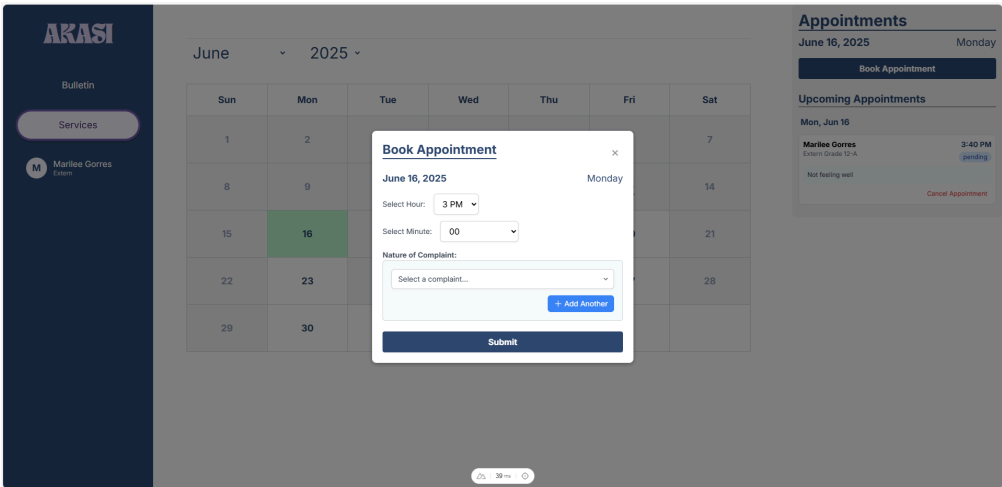

Click on the “Upload button.” When successfully uploaded, the document will be displayed on the profile page under the “Enrollment Files” tab.

To view the uploaded document, click on the “view” button, and to delete the document, click on the “delete” button.

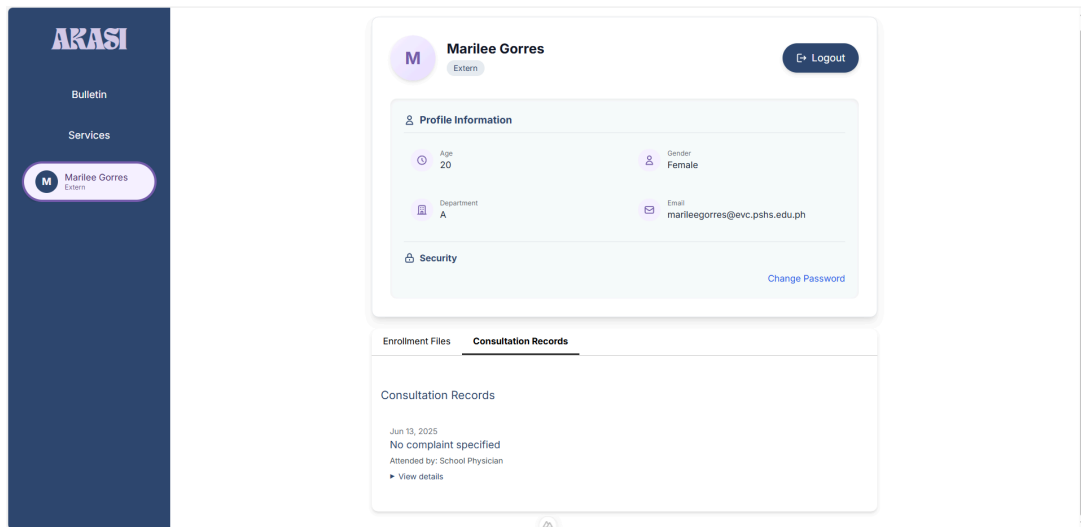

B. Appointments

Students may schedule appointments by going to the services tab there they can pick the time, date, and also select their nature of complaint

C. Consultations

Students may view their consultation records by going to the profile tab and selecting the “consultation record tab”

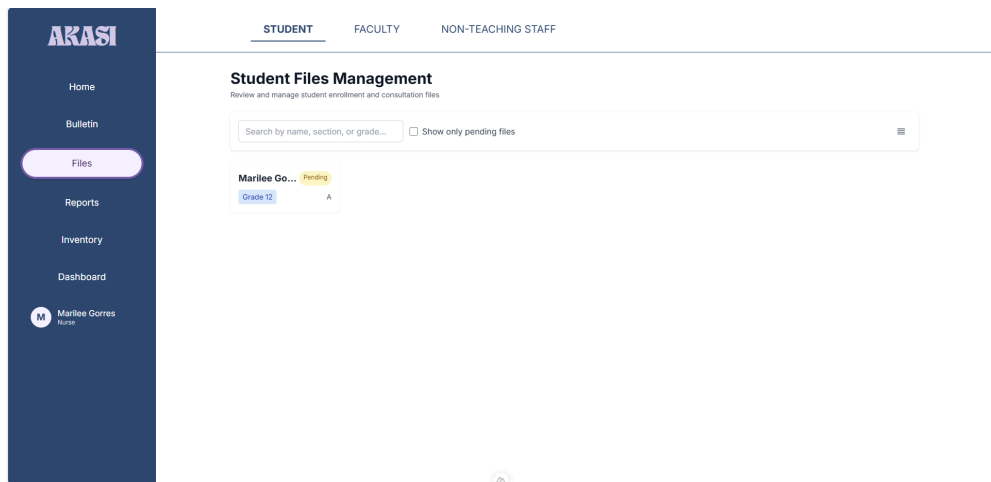

III. NURSE

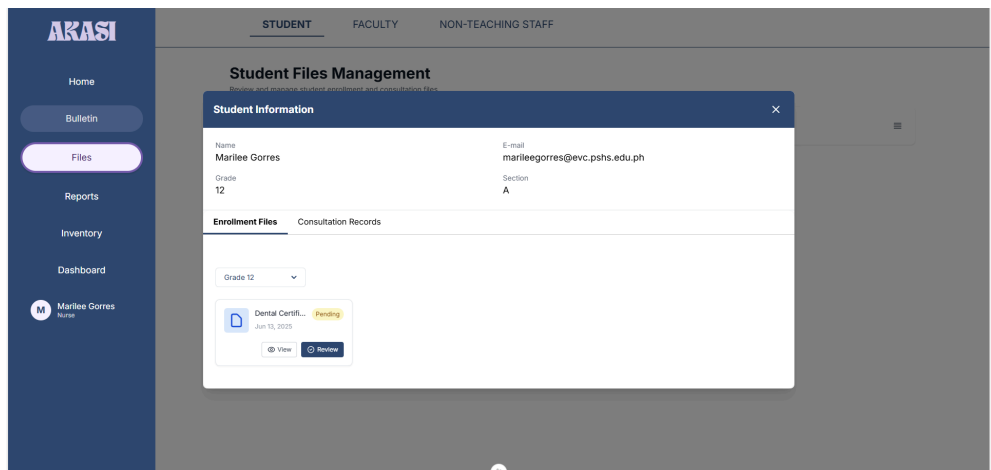

A. Enrollment

During the enrollment period of PSHS students, the main duty of the school nurse is to verify, accept, and reject the requirements submitted by enrolling students.

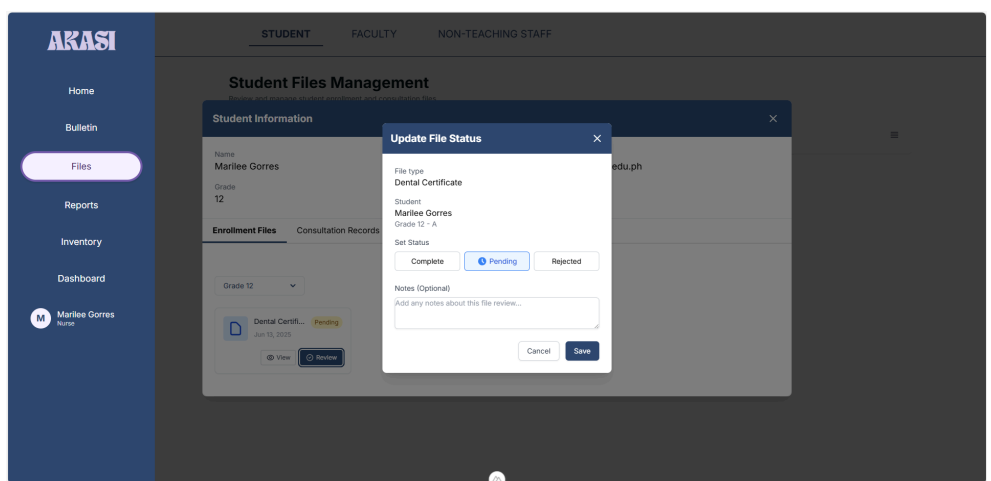

The nurse is to navigate to the [Files](#) section (left-side navbar), then select the [Students](#) tab.

From there, the school nurse can select View or Review

Then through the Review button the school nurse can update the file status of each file

B. Appointments

The school nurse may handle clinic appointments booked by clients through the [Home Page](#), and then by navigating to the [Appointments Tab \(top-right\)](#).

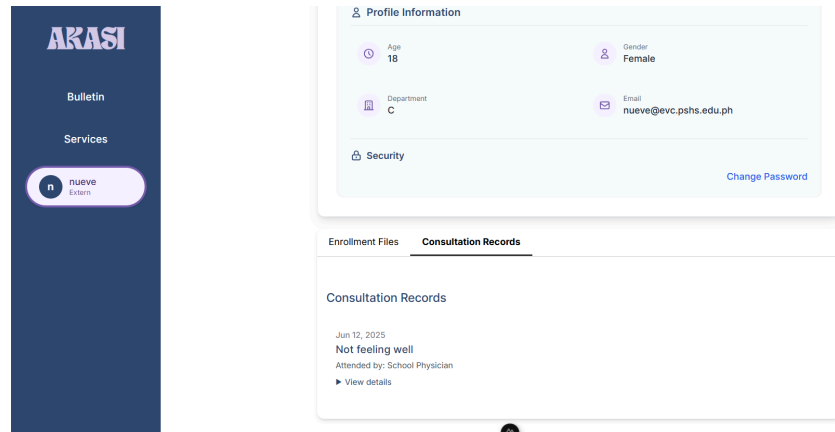

The screenshot shows the AKASI interface. On the left is a dark blue navigation sidebar with the AKASI logo at the top, followed by a 'Home' button and a list of menu items: Bulletin, Files, Reports, Inventory, Dashboard, and a user profile for Marilee Gorres (Nurse). The main content area is titled 'Confinement Calendar' and shows a calendar for June 2025. The calendar grid has columns for Sun through Sat. The date June 16 is highlighted in green. Below the calendar, there are three summary statistics: 'Total Confined in June 2025: 0', 'Total Consultations in June 2025: 0', and 'Total Consultations in 2025: 0'. On the right side, there is a panel for 'Appointments' with a tab for 'June 16, 2025' and 'Monday'. It shows an appointment for 'Marilee Gorres' at '3:40 PM' with a status of 'pending'. Below this, it says 'Not feeling well' and provides buttons for 'Manage Status' and 'Make Consultation'.

Moreover, the school nurse may also Accept or Reject booked appointments as the availability of the nurse and physician may vary from time to time.

This screenshot is similar to the previous one but includes an 'Update Appointment Status' modal window. The modal has a title bar and three radio buttons for 'Appointment Status': 'Pending' (which is selected), 'Approved', and 'Rejected'. Below these is a text input field labeled 'Notes' with the placeholder text 'Add notes about this appointment...'. At the bottom of the modal are 'Cancel' and 'Save' buttons. The background calendar and sidebar are dimmed.

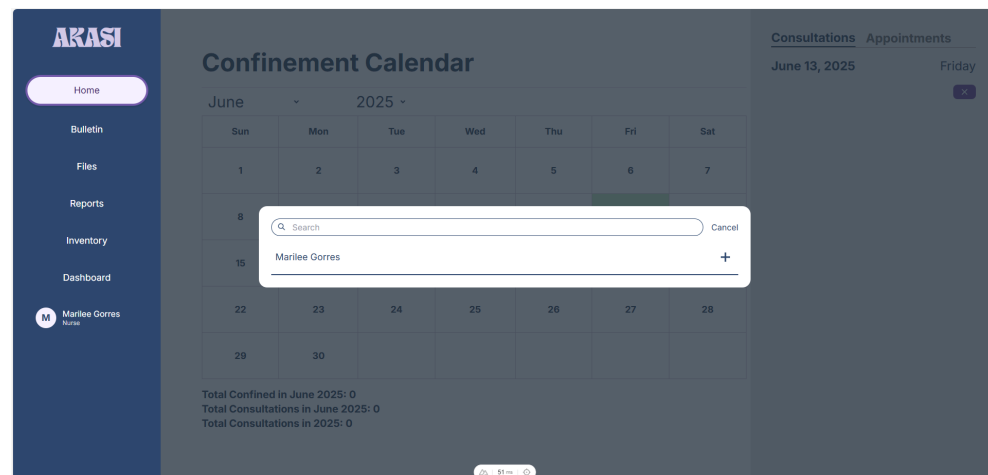

C. Consultations

To view consultation records with the HSU, select the profile page on the navigation bar. Scroll down and click on the "Consultation Records" tab. Click on "View details" to review all details of the consultation.

D. Consultations

To create a consultation session, click the [Create Consultation button \(top-right\)](#). Afterwards, a pop-up will appear on-screen to select the client that is undergoing a consultation to which the nurse may search for the name of the client at their convenience.

E. Bulletin Management

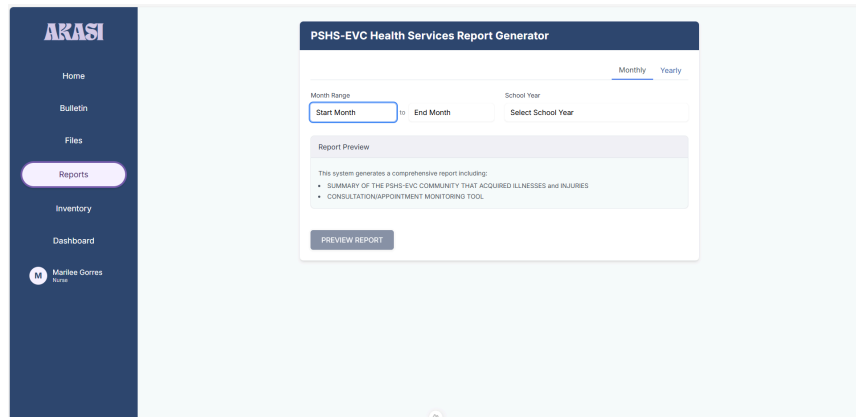

The school nurse solely has access to the updates made to the HSU Bulletin. Here, the nurse may upload images, PDFs, and other types of media containing the relevant articles and announcements made by the PSHS-EVC HSU.

To create a post, simply click the [Bulletin button \(left-side navbar\)](#), and then click the [Create Post button](#).

F. Report Generation

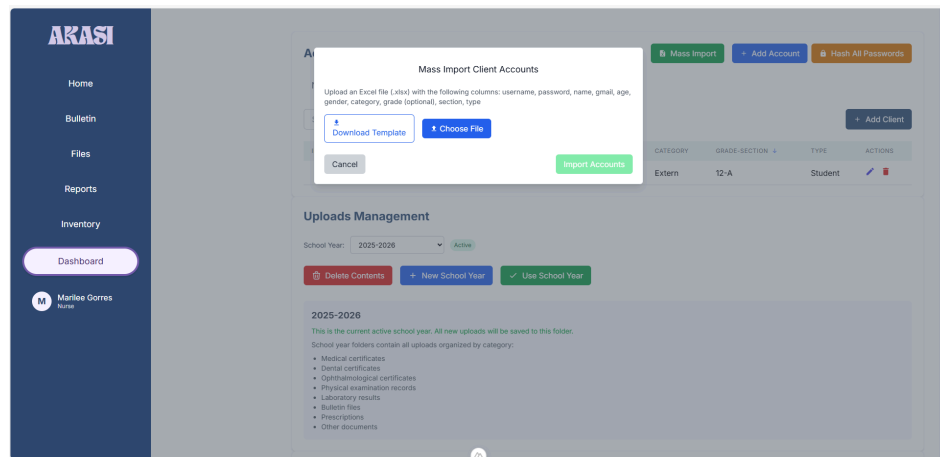

In creating an HSU Report, the school nurse is given the following options to generate a report tailored to their needs:

1. Monthly or Annual Data
2. Month Range
3. School Year

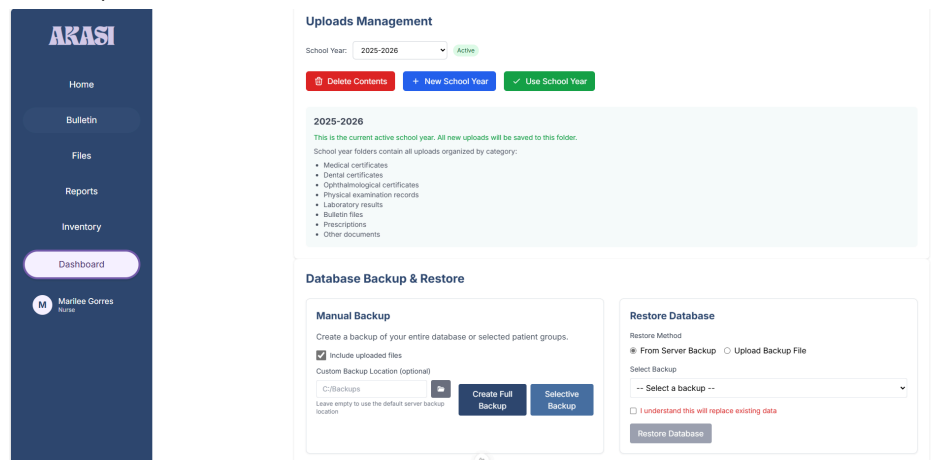

G. Account Creation

To mass create accounts download the excel template for the specific account type. After configuring the excel file you can submit the file through the same modal and start the mass generation

H. Backup Creation

I. Account Management

The accounts can be managed in the Dashboard tab by clicking the pencil icon for edits

The screenshot shows the AKASI dashboard with a sidebar menu on the left containing: Home, Bulletin, Files, Reports, Inventory, and Dashboard. The 'Dashboard' tab is selected, showing a user profile for Marilee Gorres (Nurse). The main content area is titled 'Account Management' and includes a 'Nurse Accounts' section with a search bar. A modal window titled 'Edit Patient Account' is open, displaying the following fields: Username* (marileegorres@evc.pshs.edu.ph), Password* (leave blank to keep unchanged), Email* (marileegorres@evc.pshs.edu.ph), Full Name* (Marilee Gorres), Age* (20), Gender* (Female), Civil Status* (Married), Address* (Taclaban City), Type* (Student), and Section* (12-A). The background shows a table of accounts with columns for ID, NAME, CATEGORY, GRADE-SECTION, TYPE, and ACTIONS.

J. School Year Updating

The screenshot shows the AKASI dashboard with the 'Dashboard' tab selected. The main content area is titled 'Uploads Management' and shows the 'School Year' dropdown set to '2025-2026'. Below the dropdown are three buttons: 'Delete Contents', '+ New School Year', and 'Use School Year'. The 'Use School Year' button is highlighted in green. Below the buttons, a message states: 'This is the current active school year. All new uploads will be saved to this folder.' A list of upload categories is shown: Medical certificates, Dental certificates, Ophthalmological certificates, Physical examination records, Laboratory results, Bulletin files, Prescriptions, and Other documents.

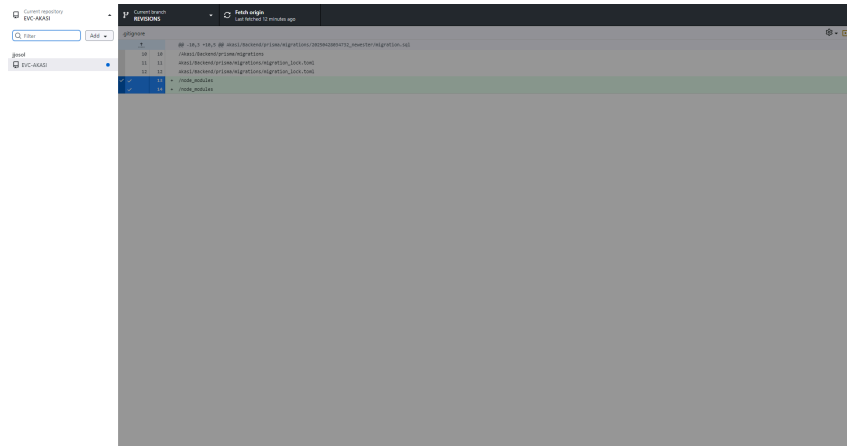

K. System Updating

In the event of a system update, the school nurse should do the following:

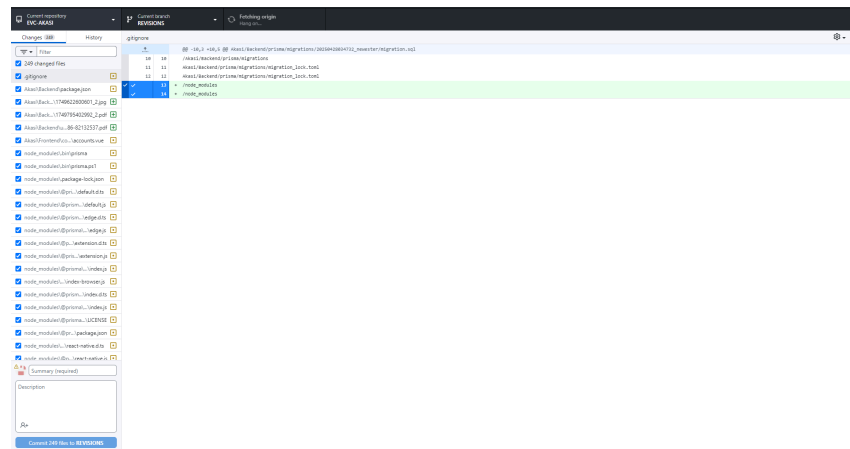

1. Close the AKASI Program by closing the 2 CMD windows (if running).

The screenshot shows two command prompt windows. The left window displays the output of the 'phpMyAdmin' command, showing the status of the system and the location of the application files. The right window displays the output of the 'phpMyAdmin' command, showing the status of the system and the location of the application files. The output includes the following information: 'Setting up environment...', 'Attempting to open phpMyAdmin with admin rights...', 'Waiting for phpMyAdmin to start up...', 'Please wait while phpMyAdmin initializes (this may take a few seconds)...', 'Waiting for 8 seconds, press CTRL+C to quit ...', 'Checking if phpMyAdmin services are running...', 'phpMyAdmin appears to be running. Starting php dev server...', 'Running php run dev...', 'Waiting for dev server to start...', 'Waiting for 9 seconds, press CTRL+C to quit ...', 'YOUR APPLICATION URLS:', 'Frontend (Main App): http://10.35.107.17:3009', 'API Backend: http://10.35.107.17:3001', 'MySQL Database: localhost:3306 (evc_akasi_db)', 'phpMyAdmin: http://localhost/phpmyadmin/', 'Opening frontend in browser...', 'Script finished! All services should now be running.', 'Check the php window for server status.', 'Press any key to continue ...'

2. Open the GitHub Application Select the EVC-AKASI Repository → REVISIONS Branch.

3. Click fetch origin then same button and pull/download the pending update/s.

IV. DOCTOR

A. Consultations

The doctor can view the consultation record sent by the nurse by going to the website there the doctor can view and create the medical consultation.

The screenshot displays the AKASI Medical Consultation interface. On the left, a sidebar shows the user 'Marilee Gorres' with a 'Home' button. The main area is titled 'Medical Consultation' and contains a form for patient information and vital signs. The patient is 'Marilee Gorres', a 'Student' in 'Grade/Section 12-A', with a 'Visit Time' of '03:08 PM'. The 'Nurse Consultation Summary' section shows 'Chief Complaints: No complaint specified'. The 'Vital Signs' section includes fields for Temperature (36.5), Blood Pressure (120/80), Weight (60), Heart Rate (80), and Height (170). The 'Complaints/Diagnosis' section has a 'Search or select diagnosis' field and a 'Manage' button. The 'Treatment/Instructions' section has a text area for 'Enter treatment plan and instructions'. On the right, a 'Consultations' table shows a record for 'June 13, 2025' by 'Marilee Gorres'.
